

When you create a fund with Vancouver Foundation, we pool your money with other donations, invest it prudently, and use a portion of the income generated by these investments to support thousands of charities.

Investment Objective

Vancouver Foundation’s investment policy is designed to optimize returns, maximize distributions (the portion of income from your fund that is given out annually) and, at the same time, protect the capital against inflation.

Investment Options

When you create a fund with Vancouver Foundation you have two investment options:

Consolidated Trust Fund (CTF)—a diversified balanced fund of equities, fixed income, real estate and multi-strategy funds. The majority of our funds are invested in the CTF.

Socially Responsible Investment (SRI) Fund—a balanced fund that screens out companies predominantly involved in fossil fuels, military weapons, nuclear power utilities, and tobacco.

Investment Committee

A committee of volunteers with extensive knowledge in the investment field provides oversight and monitors investment performance. Responsibilities of the Investment Committee include:

- Reviewing the Investment Policy Statements
- Reviewing asset allocation
- Monitoring risk and return by fund and by manager
- Monitoring compliance
- Recommending appointment/termination of investment managers

Asset Classes

To achieve the appropriate levels of risk exposure balanced against return expectations, our Investment Policy allocates investments to the following asset classes:

CTF Policy Asset Mix

SRI Policy Asset Mix

Investment Managers

Vancouver Foundation employs a multi-manager and multi-asset class structure in our investment portfolio.

By spreading our funds over multiple firms, we can select best-in-class money managers based on their areas of expertise and diversify our holdings across various asset classes and geographies.
